

### Primary Presentation Objective

- Help men understand that when we search for God from a scientific and philosophical perspective, all pathways point to God.

### Secondary Presentation Objectives

- Look Up - The Study of the Universe
- Look Down - The Study of Microorganisms
- Look Around - The Study of Forces, Behaviors and Natural Laws
- Look Inside - The Inescapable Reality of the Human Conscience

### Essential Small Group Goals

- Objective Truth - seek and you will find. At the bottom of every search, we stare into the face of being out of this world - God.
- Equip men with some basic tools and knowledge for living in a world where atheism is rapidly increasing. In many cases, this applies to their families as well.

### Questions from Video Presentation

- Which of the four lines of evidence to God - looking up, looking down, looking around, looking inside - did you find the most intriguing or compelling? Why?
- Some think it's pointless to discuss evidence for God, because "For those who believe, no proof is necessary; for those who don't believe, no proof is sufficient." Is that true? Is it a waste of time to discuss whether the world we observe around us points to a God or not?

### Supplemental Questions

- What struck you about today's session with Dr. John Bergsma?
- In your lifetime, have you personally witnessed an increase in atheism? Who are the people in your life that you would like to share this content with?
- Why is it so important for the modern Christian to have a grasp of both the scientific and philosophical case for the existence of God?

### Next Week!

- Speaker: Dr. John Bergsma                      Topic: Why Jesus?

## OPTIONAL PREPARATION FOR NEXT SESSION

Scripture: John 1  
Religious: CCC 430-455
