

FACILITATOR GUIDE

Session 21: The Darkness of Modern Culture

Primary Presentation Objective

- Modern culture is suffering the consequences of a heart that is enslaved to the world, the flesh and the devil. To transform the culture, we must transform hearts.

Secondary Presentation Objectives

- Technology can be used for good or for evil. It can make us efficient or help us to waste all of our time. Help men understand the substantial effects current technology is having on marriage/family life, faith, and our youth.
- Open the eyes of the men to how far the darkness of these times can take our culture.

Essential Small Group Goals

- Have an eye-opening and honest discussion about enslavement to sins of the flesh. First and foremost, start with the man in the mirror and then consider greater society.
- Continue to express real and authentic hope. Christ died and rose for every sin. This reality allows us to have a discussion about the darkness without despair.

Questions From Video Presentation

- How do you prioritize faith and family in your own life?
- What actions are you doing that undermine your faith and family?
- In what ways are you helping the next generation to embrace faith and family?

Supplemental Questions

- What struck you in today's presentation?
- What can we do as men to stop objectifying women?
- How can we help others to do the same?

Next Week!

- Speaker: Steve Bollman Topic: A Civilization of Love

OPTIONAL PREPARATION FOR NEXT SESSION

Scripture: Ephesians 5

Religious: The Choice Wine, Steve Bollman
